Iqra. — **Ex. 6 Personal Privacy (PP)** Will you send Kathy the abstract for the new owow action - the cwa 404 assumable waters rule? The action is at the top of OWs list in adp tracker and it should be shown as tiering.

No problem, the comments he made I had in the version I sent forward. My guess is they got lost - somewhere along the chain - during editing to be specific and trying to stick to one page. We can reinsert them.

Sandy can you send me this Version electronically so I can reinsert the language.
Thanks.

P.s. Macara if Dave asks:

Sandy/Kathy – please see the attached for Dave’s comments. It looks like he wants some more context added. If you have any questions we’ll need to follow up with Dave. He didn’t hand this back to me in person so I don’t have any more info than what’s on the page.
